Company Profile

ABOUT Apex Industries

Our story at APEX INDUSTRIES LLC is one of dedication, innovation, and a relentless pursuit of excellence. It all started with a clear vision and a passion for precision manufacturing.

Founded by a team of industry experts with a shared commitment to quality and innovation, APEX INDUSTRIES LLC quickly emerged as a trusted name in the manufacturing sector.

Our journey began with a profound understanding of the market's demand for superior metal and steel products. Guided by this insight, we set out to redefine industry standards by delivering products of exceptional quality and durability. From our humble beginnings, we have expanded our capabilities and enhanced our expertise, continuously striving to meet the evolving needs of our clients.

Today, APEX INDUSTRIES LLC stands as a beacon of craftsmanship and reliability, known for our meticulous attention to detail and customer-centric approach. We take pride in our ability to innovate, adapt, and exceed expectations, forging lasting partnerships with clients across diverse industries. As we continue to grow, our commitment to excellence remains steadfast, driving us to push boundaries and set new benchmarks in precision manufacturing.

Why Choose us

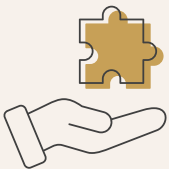

UNMATCHED QUALITY

We utilize the highest-grade materials and state-of-the-art technology to ensure our products meet the strictest industry standards.

INNOVATION & EXPERTISE

Our team of skilled professionals brings years of experience and innovative solutions to every project, ensuring excellence and efficiency.

CUSTOMIZED SOLUTIONS

We offer tailored manufacturing solutions to meet your needs, from design and prototyping to production and delivery, ensuring a seamless, customized experience.

RELIABILITY & TRUST

Our commitment to on-time delivery and exceptional customer service has earned us a reputation for reliability and trustworthiness.

SUSTAINABLE PRACTICES

We are dedicated to sustainable manufacturing practices, minimizing environmental impact while maximizing product performance.

COMPREHENSIVE SUPPORT

We provide ongoing support and maintenance services to ensure the longevity and optimal performance of our products, helping you achieve long-term success.

Our Keys

MISSION

At APEX INDUSTRIES LLC, our mission is to deliver high-quality steel, metal, and metal products through innovative manufacturing. We exceed customer expectations with exceptional service, integrity, and sustainable practices, advancing industries worldwide.

VISION

At APEX INDUSTRIES LLC, our vision is to be a global leader in steel and metal manufacturing, known for quality, innovation, and customer satisfaction. We aim to advance industry standards, promote growth, and uphold environmental responsibility and engagement.

Comprehensive Steel and Metal Manufacturing Solutions

At APEX INDUSTRIES LLC, we specialize in delivering high-quality steel, metal, and metal products tailored to meet the diverse needs of our clients. Our services include precision metal fabrication, custom metal products, and large-scale steel manufacturing. With state-of-the-art technology and a dedicated team of experts, we ensure superior craftsmanship and reliability in every project. Whether you need structural steel, custom metal components, or specialized metal products, APEX INDUSTRIES LLC is your trusted partner for excellence and innovation in metal manufacturing.

Electric Control Panel

At APEX INDUSTRIES LLC, we excel in manufacturing steel, metal, and metal products, embodying precision and durability in every component we produce. Our commitment to quality extends to our specialized service of Electric Control Panels, where we leverage cutting-edge technology and meticulous craftsmanship to deliver robust solutions. Whether for industrial automation, power distribution, or custom applications, our Electric Control Panels are engineered to optimize performance, enhance safety, and meet the unique operational needs of our clients. Trust APEX INDUSTRIES LLC for reliable, high-quality Electric Control Panels that integrate seamlessly into diverse industrial environments, ensuring efficiency and reliability across every project.

Here are some points about Electric Control Panels

01 Customized Solutions

02 Advanced Technology

03 Quality Assurance

04 Versatility

05 Expertise and Support

Electric Control Panels are vital for managing and regulating electrical systems in industrial and commercial facilities. They house components like switches, relays, and circuit breakers to control machinery and processes, ensuring safety and efficiency. At APEX INDUSTRIES LLC, we produce high-quality, customized panels that meet industry standards, enhancing productivity and reliability for diverse applications such as manufacturing plants and HVAC systems.

STANDARD ENCLOSURES

Wall/Floor Mounting Metal Enclosure can be installed in different electrical Control systems, Machinery transmission, Pump, and etc. Whether you design your enclosure or make use of our simple standard design, you can always trust Sunshine for the quality and service you are looking for.

EXTENDABLE ENCLOSURES

Extendable enclosures can be used in sub-main or Main form-2 electrical distribution in residential, industrial and commercial buildings. Sunshine extendable enclosures are need of special FIVE fold profiles to provide high strength. It's an enclosed column structure, compared with traditional open type beams and columns, such as C profiles.

FORM-4 PANEL

Main electrical distribution system is designed for Housing protection, Motor control, Control of LV devices in commercial and industrial sectors. Sunshine designs FIVE fold profiles using high quality special tee welded into the structure for high strength. Cabinet side covers, back covers, plates, top plate, bottom plate can be removed for easy installation and maintenance.

ALUMINIUM ENCLOSURES

Single wall

Each aluminum enclosure is carefully designed for maximum Strength, Rigidity & Support Single walled enclosures come with simple construction to protect electrical equipment against weather conditions and corrosion.

Double wall

The aluminum in combination with double walls is the ideal solution for optimum heat management, ensuring performance of electronic equipment's. The Inner housing is provided with an external wall constructed at a distance of 25mm.

FEEDER PILLARS

Apex prides itself on producing a variety of pillars to meet the utility market requirements. The body of this electrical unit is much harder and sturdy to prevent vandalism and unauthorized hooking, the entire unit is mounted upon a steel base that is manufactured from at least 3 mm of thickness. Rain canopy is provided due to outdoor installation.

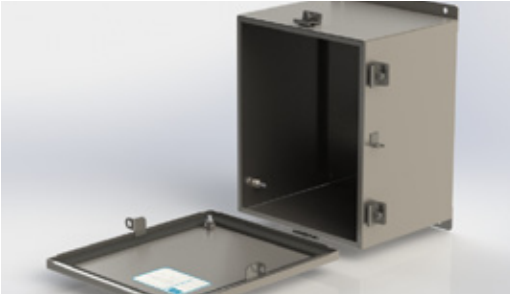

CONTROL PANELS

Control desk are sheet metal enclosure specifically made for mounting of control & indication element such as meters, controllers, annunciators, mimics, lamps push button actuators, switches, etc.

STAINLESS STEEL ENCLOSURES

Stainless steel enclosures protect electrical equipment from high corrosion environment. Usually this occurs where there is risk of salt water coming into contact with the enclosure, whether it is from sea spray, or some of the inland areas where the ground water can be quite high in salts

JUNCTION BOXES

Junction box is a container for electrical connections, usually intended to conceal them from sight and deter tampering

GLAND BOXES

GB is an enclosure used to hold glands & cabling for increased safety & are generally installed with the main enclosure

DISTRIBUTION BOXES

DBs are available in 2 types – Flush and Surface mounted boards. Suitable for housing, industrial and commercial app.

SPECIAL ENCLOSURES

At Apex Industries LLC, we are dedicated to delivering exceptional project outcomes through our customized handling approach. Our commitment to excellence starts with understanding each client's unique needs and goals. We apply a structured yet flexible project management methodology to ensure that every aspect of the project aligns with your vision.

Our team of seasoned professionals works collaboratively with clients to develop innovative solutions, leveraging the latest technologies and industry best practices. From initial planning and design to execution and completion, we maintain a clear focus on quality, efficiency, and client satisfaction. Our approach includes meticulous planning, robust risk management, and transparent communication to navigate any challenges that may arise.

We believe in the power of a personalized approach to drive project success, as we aim to exceed expectations and build lasting relationships with our clients.

"In every project, we see an opportunity to exceed expectations and turn visions into reality. At Apex Industries LLC, excellence is not just a goal—it's our standard."

At Apex Industries LLC, we turn your project goals into reality with precision and dedication.
